M VERESTCHAGIN'S EXHIBITION.

The politicians are not the only ones who are about Verestchagin, his two Cossack assistants and their twenty-eight workmen, all of whom have been working day and night at the task of hanging the Verestchagin paintings and bric-a-brac for exhibition, are apparently about ready to retire and sleep off their fatigue. The exhibition will probably be ready for the public about November 10, and the work of getting ready for it has been far beyond what was anticipated. The material used in this show is not of the ordinary kind, morely requiring the use of reasonthe ordinary kind, morely requiring the use of reasonably well-lighted galleries. M. Verestchagin brings with him everything required for the exhibition except the bare walls of the building. Every inch of floors, walls and ceiling is covered with some article belonging to the collection and appropriate to the exhibition. In addition to the paintings themselves there are Persian rugs, tapestries, armors, weapons and curiosities of various kinds, and even the electric lighting apparatus is brought with the other materials from Europe.

· NO PATENT ON A ONE-ARMED MAN.

William Gillette, the dramatist, received a letter from the law firm of Andrews & Purdy on Saturday, accusing him, on behalf of a client, of plagiarizing the scene in "Held by the Enamy" where Miss Susan McCreary discovers Mr. Bean's empty sleeve. The letter demanded an immediate response or a suit would be brought sainst him. Mr. Gillette did respond, and in his characteristic style. He said:

"Go ahead. There was a time when I couldn't afford
the luxury of a lawsuit, and consequently avoided them.

Now it is quite different. I have become so accus-tomed to them that I feel lost if I haven't at-least one on my hands. So go shead. I don't think there is any patent on a one-armed man, and as for an empty sleeve, there is nothing in it. I shall await developments with considerable curiosity."

GENERAL BUTLER'S CHEWING GUML From The Chicago Herald.

From The Chicago Herald.

A Chicago lady who recently went East with a little niece whom she was taking to school met with a most amusing experience on the train en route. Somewhere down in New-York State a short, fat man, with a peculiar-looking eye, entered the car and took a seat directly opposite the lady and her little charge. The little one surveyed him closely for a few moments, and then, turning to her annt, she whispered: "Auntie, that's Ben Butler." The lady had not taken any particular notice of the new passenger, but at this she looked over at him, and in an instant recognized him, as the little girl had, from the familiar caricatures of the little girl had, from the familiar caricatures of the little girl had, from the familiar caricatures of the little girl had, from the familiar caricatures of the little girl had, from the familiar caricatures of the little girl had, from the familiar caricatures of the little girl had, from the familiar caricatures of the little girl had, from the familiar caricatures to the little girl had, from the paper, and then began a secarch through all of his pockets for a penell with which to jot down something that had just occurred to him. Seeing that his search was fruitless, the lady leaned over and offered him her penell. He took it with a polite acknowledgment, and made took it with a polite bow and smile. For a few moments his mind appeared to be occupied with something, and then be seemed to recover himself again. Fumbling in the pocket of his overcoat he again. Fumbling in the pocket of his overcoat he drew forth a small package and passed it over to the lady, with a pleasant nud. She hesitated a moment, then accepted the offering, and found, to her amused surprise, that it was a fresh package of Aucaian chewing gum. That Mr. Butler had a good supply of the article was evident to her from the vigorous working of his jaws, and she appreciated his effort to recognize her kindness in loaning him her penell.

Apropos of English diplomats, there is some rather breazy reading in the biography of Canning that has just been published. Canning, although a great diplomat, was not popular with his secretaries and attaches. On one occasion it is told of him that said to his secretary: "D-n your eyes." Where upon the secretary, with a perfect combination of deference and dignity, replied: "D-n your excellency's eyes." Canning's wife acted as peacemaker on this occasion, and chief and subordinate were friends ever afterward.

MARY ANDERSON IN AMERICA AGAIN.

SHE RETURNS AFTER AN ABSENCE OF ALMOST

THREE YEARS. After an absence of nearly three years, Miss Mary Anderson returned from abroad yesterday on the steamship Umbria. It was about 7 a. m. when the vessel entered the harbor and steamed up toward ber pier. When first caught sight of Miss Anderson was standing on the quarterdeck, silent, immovable. Not far off were her brother and several fellow passengers, chatting and laughing gayly. Miss Anderson were a long gray ulster and cape of Irish frieze, a gray velvet toque bonnet, trimmed with gray ostrich feathers, and gray kid gloves, while gray cloth overgalters half hid her little patent leather Even the huge vessel looked gray in the settling mists of the morning, and the sky above took on a clear steel blue tint, forming a background in perfect keeping with the that picture of colorless, classic beauty. A DOLLAR FOR A TRIBUNE. THE SUPPLY EXHAUSTED EARLY YES-

DEALERS AND READERS ANXIOUS FOR MORE-DEMOCRATS BUY UP ALL THE COPIES THEY CAN FIND.

"I want The Tribune! Give me a Tribune." "I'll give twenty-live cents for a copy of to-day's Tribune." These and many similar expressions were heard yesterday morning in all parts of this city and in neighboring cities, but after 10 o'clock it was almost impossible to satisfy these demands at any price. The great Republican parade of Saturday and Mr. Blaine's speeches in Brooklyn had made all Republicans happy in the certainty that "Harrison is all right," and that New-York is safe for the Republican ticket. Naturally, therefore, everybody wanted to read the story of the parade and the great Brooklyn neetings. Besides, everybody wanted to see the fac-simile of the famous Sachville letter which appeared in the supplement. The inevitable result followed, and although every dealer in the city had doubled his usual order, and an unusually large edition had been printed, the supply was exhausted long before noon, and copies of the paper were eagerly sought at many times the usual price. At The Tribune counting-room the supply gave out before 10 o'clock, and the clerks there talked

INSPIRING AND SAGACIOUS LEADERSHIP.

A GENEROUS TRIBUTE IN AN IMPORTANT JOUR-

NAL. From The Auburn (N. Y.) Advertiser Now that the great quadrennial political contest in this country is drawing to a close, it is only just to notice how ably The New-York Tribune has maintained therein its title to be regarded as the leading Republican newspaper of the United States.

Hardly had the President thrown the gauntlet,

in his free-trade message last December, and before the Nation had fairly awakned to its significance, that journal, with its signal enterprise, secured an inter-view with Mr. Blaine in Paris, in which the party's standard-bearer of four years ago accepted the chalvincing terms the reason why we should wage our National campaign this year on the tariff issue. can be no question that the party's decision to take that course was largely due to the agitation of public thought by Mr. Blaine's elaborate and eloquent argument. Any other paper, perhaps, might have elicited

Recognizing that the Free Trader, despairing of making converts among the employes of manufacturers, was about to make a fresh "dead set" at the farmers of the country, The Tribune made an exter but quiet canvass of sentiment among the agriculturists, obtained thousands of answers and convened a council of representative men, over which the Hon. Warner Miller presided. That body framed an address to farmers en-bedying the substance of the opinions that had been drawn out and placed in circulation a pention to Congress relative to the tariff on farm prod-These steps set in motion intellectual and patriotic forces among a special class of citizens upon whose action he next National election largely depends. Any other prominent newspaper might have undertaken this task, it would seem; but somehow

The great plea in behalf of Mr. Cleveland, four years ago, was that he was a Civil Service Reformer. Soon after his renomination this year, The Tribune pre-sented to the country a four-page review of the President's appointments, revealing in a startling way the President's colossal failure and hypocrisy, and as completely shattering the old argument in his behalf as would a ton of dynamite the flimslest shanty in the Twenty-third Ward. This undertaking involved an immense amount of research; yet any other newspaper could have performed it. However, no other

Quick to discern the disgusting and false pretence of Pension Commissioner Black that the Administration was the friend of the soldier, The Tribune, with splendid persistency and alertness, has for the last year or two been educating the veterans on the subject of pensions and pension vetoes, and, more particularly in its weekly edition, has labored to keep those old heroes and their friends enlightened as to the States which were doing the most for their interests. In this feature of its work, which has an important bearing on the campaign, The Tribune has not been rivalled by any other general newspaper in the country.

tries, it was necessary that the desires of America's chief manufacturing rival and foe, Great Britain, should be revealed to every Yankee voter. To establish these pernicious aims, The Tribune has reproduced column after column of opinions, of undisputed gennineness, from the British press. No other paper has done anything like this in extent or preco

And when, a few days ago, the British Minister's amazing interference in our politics, in the interest of John Bull, was made known in a remote and small town on the Pacific Coast. The Tribune was foremost in perceiving its significance and value and, more any other newspaper, has developed the tro-

mendous National sensations of the past week. For several years, and especially since 1884, Republican leaders have noticed that the party strength was being sapped by the unfortunate, even if well meant, Third party movement. The peril was the votes were practically decisive in a Presidential campaign. But among the wisest counsellors there was much uncertainty about the best way of dealing with the situation. The Tribune, if not more clear in its vision, at least more prompt and decisive in its action, has for the last two winters insisted upon such legislation by Republicans at Albany as would more effectively voice the popular hostility to the rum power than could any impracticable prohibitory law; the Stamese-twins-like association between Governor Tribune's urgent persuasions has largely contributed Second, certainly one must expect, I suppose, that to the party's decision to make high licenso the chief

But not alone in its regular editions-has The Tribune campaign extras, on the Mills bill, England's wishes, on wages, pension vetoes, Civil Service hypoerisy, been purchased by campaign committees and private individuals for use votre they would do the most good. The pith and point of the day-by-day fact and reasoning were put into this concentrated form, sup-planting in a unique way and with untold force the ordinary journalistic methods of The Tribune.

It is the splendid foresight, long-headed sagacity, viri'e strength and brilliant enterprise of the similar strokes that have made The Tribune this year, as it has been in the past, distinctively the leading Republican paper of the United States. Other journals, mirably and the campaign committees and orators have done magnificent service. But the lines on which the battle has been fought have been first indicated by The Tribune, and with a wisdom which no one gainsays.

If, now, Chairman Quay's efforts to prevent fraud at the polls in the close States are only successful, a gratifying victory will crown the heroic labors

which are now so nearly finished. REPUBLICAN

Court of Appeals.

fact that for the first time in the history of the State it is proposed to leave the City of New-York without a representative on the bench of the Court of last resort. It is well known that more than one-half of the important litigation which comes before that Court originates in this City. It is, consequently, of theutmost importance that there should be a Judge in that tribunal who is thoroughly familiar with the questions that arise in a great commercial centre like ours, and which are seldom presented in the rural districts. It is still more important that some member of the Court should be familiar with our municipal affairs, as all claims against the City Treasury are finally determined by that tribunal.

JUDGE GRAY.

now a member of the Court, has been renominated. He was born in this city, and his entire professional life has been spent here. He has made an excellent Judge, careful, industrious and able : and his re-election will establish the principle of retaining competent Judges upon the bench-a principle which was so happily originated in this State in the unanimous reelection, some years since, of Judges Rapallo and Andrews. Judge Gray's opponent resides at Bath, Steuben County, a section of the State which already contributes five of the seven Judges who constitute the Court of Appeals.

We therefore carnestly recommend the re-election of Judge

MASS-MEETING. The effort to re-elect Mayor Hewitt means an attempt by the citizens of New-York who are interested in its honest economical and efficient government to rescue the city from

the control of party leaders. The issue is with that secret, irresponsible, dangerous organ ization called Tammany Hall. Every vote not given to Mayor again. To avert such a calamity it is of paramount importance that we should have an honest, courageous, intelligent, inde pendent and a capable Mayor.

Abram S. Hewitt is such a man. He has been tried. knew him ; we need him. Lesolved, That we will support him, vote for him, and if we
